MEMORANDUM FOR:

25X1

FROM:

DCI

I want a memo to go to the NSC reviewing our series of vulnerability studies, their availability, and indicating their net implications, particularly pointing out where follow-through has been lacking on sanctions or other responses as in the case of Libya and Nicaraguan bananas (see attached).

25X1

On Cuba, there has never been a government-wide review of Cuban vulnerabilities. Our vulnerability study was passed to the NSC but I don't think it was distributed beyond there.
